Best Of The Best

I think I need a friend Just a friend to hold What a dream I had, oh You were still around, saying: "Don't stop. We're living it fast. Feet on a one way street. Don't start, You're breaking my heart in t-t-two. Don't stop, We'll make it alright, I know we are the best of the best. I know we are the best of the best. I know we are the best of the best. I know we are the best of the best. I know we are the best of the best.

Just like falling stars" I remember you Singing all the way down: "Don't stop"

But then, we ran out of luck And I ran out of you. What a dream we had, oh Off to Mexico, singing "Don't stop"
