

Big Ass Love

The Crash

I've been sailing the seas on a big ass boat
Trying to see what the world's about, whoo-oo
Searching around for a missing note
But all I could think of was you, oh oh

Rolling around like a rolling stone
Fooling around in the danger zone, whoo-oo
Crying alone on the telephone
'Cause all I could think of was you

Ain't nothing as big as love
Searching for the big ass love
But I'm telling you I will never be your baby (be my baby)
And you will never be my lady (be my lady)
'Cause we gave that away

I've been flying away on a big ass plane
Drowning my tears in fine champagne, whoo-oo
Running away from a bad ass pain
'Cause all I could think of was you, oh oh

Travelling around from A to Z
Seeing the things I could not believe, whoo-oo
Stood at the top of a pyramid
Where all I could think of was you

There ain't nothing as big as love
Searching for the big ass love
But I'm telling you I will never be your baby (be my baby)
And you will never be my lady (be my lady)
'Cause we gave that away

I've been sailing the seas on a big ass boat
Trying to see what the world's about, whoo-oo
Searching around for a missing note
But all I could think of was you

There ain't nothing as big as love
Searching for the big ass love
But I'm telling you I will never be your baby (be my baby)
And you will never be my lady (be my lady)

'Cause we gave that away
We gave that, oh, we gave that away
Away
