

# I Never Dance

The Crash

I love these feet, they get me home when I'm all alone  
Right through these streets, as lonely as I am when I go home  
So stay with me, let's feed the night and kill the morning  
City breathes, the sun will rise and stop the falling, yeah

I'm dancing though I never dance  
You're laughing though you never laugh  
I hope we're more than friends  
And I hope this will never end, oh  
This shall never end, oh, this shall never end

Angels fall, break the windows on the rooftops  
Strangers call, they go to places where rock 'n' roll rocks  
Embraces. Around the corners love is being born  
White faces cry alone when their love is being torn

I'm dancing though I never dance  
You're laughing though you never laugh  
I hope we're more than friends  
And I hope this will never end, oh  
This shall never end, oh, this shall never end

Love, gotta love, just feel it, got a lot  
Ooh-aah, gotta love, just feel it, got a lot

I'm dancing though I never dance  
You're laughing though you never laugh  
I hope we're more than friends  
And I hope this will never end, oh  
This shall never end, oh, this shall never end

(Never)

(This shall never end)
