

New York

The Crash

You got your start, you went to New York. Yeah. It's enormous
You went to see just where the wild wind blows
And it's more than you

You are in New York
This is heavy
No doubt about that
Dreams will happen

You cross your heart and hope you never die in this life
You want to feel how deep the new world breathes
And it's more than you

You are in New York
This is heavy
No doubt about that
This is heaven

And then one day, you rock the USA. Yeah! Wow!
And it's more than you

You are in New York
Streetlights glitter
brighter than stars
This is heavy
No doubt about that
This is heaven
You are in New York
