

## What If I Meet You

### The Crash

Where could you be on a night like this?  
I've looked around all of this town  
Somewhere there is you  
What if I meet you?  
Someone here is you  
What if I meet you?

Who could you be in a place like this?  
What would you feel for a droid like me?  
Somewhere there is you  
What if I meet you?  
Someone here is you  
What if I meet you?

I thought I saw you dancing, caught you glancing  
Somewhere there is you  
What if I meet you?  
Someone here is you  
What if I meet you?  
What if I meet you?  
What if I meet you?
