## **Right Now**

## **The Creatures**

Right now Let me take you by the hand Right now Put your lips at my command Right now Fly me off to lover's land Baby Don't you leave me at the post Kiss me You can feel it coast to coast Right now Baby, need your love the most You have set my soul on fire Only you can satisfy this great desire Right now Let the full world break in two Right now Stars can tumble from the blue Right now Just as long as I'm with you Right now It's the time and it's the place Right now For a ride to outer space Right now Let me have that wild embrace You have set my soul on fire Only you can satisfy this great desire One time Let the wine of love flow free One time Be the lover you can be Right now Come and give yourself to me
