

Dearly Departed

The Creepshow

Once told a story about a house that haunts me still
It's secrets are now hidden inside me
It gave me a fright I suffered into the night
Wasn't sure what happened till it turned on the light

It turned on the light

I saw it comin'
A creature runnin'
Its demon eyes locked right on me
He said "My Darling you're, dearly departed"
Held me tight and took a bite I sank into the night

Since that day I just haven't been the same
The curious that wander are my prey
They come rollin' in to be the heart of my sin
Take their souls and put them in their graves

Put them in their graves

I saw it comin'
A creature runnin'
Its demon eyes locked right on me
He said "My Darling you're, dearly departed"
Held me tight and took a bite I sank into the night

You won't get out alive
You can say good bye
What are you looking for
There ain't no way you're getting out that door

Getting out that door
