

Keep Dreaming

The Creepshow

I woke up screaming
From a nightmare can't explain
Been playing games with blackness
A soul without a name oh woah
They keep on digging
The world is crumbling
It's gone out of control
Would you take a chance
Trade all your dreams
To the devil inside your soul oh woah
They keep on digging

Well keep on dreaming darling
They said you ain't never going home
Well keep on screaming darling
They said you're out here all alone
Trapped inside these same four walls again

Well I know you think you're leaving
But you're forever trapped my friend
You can try all night till you finally realize in the end
Trapped inside these same four walls again

It may seem crazy
But it all went down that way
Would never tell a lie
At least not here right to your face oh woah
They keep on digging
The room is breaking
Getting smaller with each breath
Can't take the time to close my eyes
Cause we're dancing close to death oh woah
They keep on digging

Well keep on dreaming darling
They said you ain't never going home
Well keep on screaming darling
They said you're out here all alone
Trapped inside these same four walls again

Well I know you think you're leaving
But you're forever trapped my friend
You can try all night till you finally realize in the end
Trapped inside these same four walls again

I tried I tried but I'll never survive
I cried I cried all through the night
Oh my oh my this just isn't right
They made a mistake
I'm not the one who is sick
Someone please come take me away

Well I know you think you're leaving
But you're forever trapped my friend
You can try all night till you finally realize in the end
Trapped inside these same four walls again
Trapped inside these same four walls again
