## Shake

## The Creepshow

I love what you love, you love what I lack But that was once upon a time Hey there pretty boy don't walk away from me 'Cause you know it just ain't right You got me shakin' down to my knees And I'll never feel right until you're by my side

Can't shake you baby You keep on creepin' up my spine Look over my way, you know I gotta make you mine... It's just a matter of time!

And I know (I know) you got it! Every little thing about you baby It makes me wanna scream (2x)

I love what you wear you hate when girls cry You've got some dangerous eyes well I saw another boy Walkin' down the street but I know he just ain't right The same thing goes for every boy I see Well don't you think it's funny When you break it down now do you honey!

Can't shake you baby You keep on creepin' up my spine Look over my way, you know I gotta make you mine... It's just a matter of time!

And I know (I know) you got it! Every little thing about you baby It makes me wanna scream (2x)

So where are you at My little Hellcat let me take you home 'Cause you know you've got me shakin' down to the bone yeah!

Can't shake you baby You keep on creepin' up my spine Look over my way, you know I gotta make you mine... It's just a matter of time!

And I know (I know) you got it! Every little thing about you baby It makes me wanna scream (2x)

You make me wanna scream! You make me wanna scream! You make me wanna scream!
