

# They All Fall Down

## The Creepshow

This is a world state of emergency, and there ain't no end in sight  
Continue hoping that we'll make it through the night  
It's like a fatal game of hide and seek, and we're running for our lives  
We're all doing what we can just to survive

Nobody's gonna be left standing when the waves come crashing down  
Round up the bodies and stack 'em high we're gonna burn them to the ground

They all fall down  
They all fall down  
Ashes Ashes  
They all fall down

Now we can hear the screams get louder  
Smells like death in all the dust  
All the victims left behind will turn to rust  
Ain't gonna turn around to see, there's no secret left to hide  
We're all doing what we can just to survive

Nobody's gonna be left standing when the waves come crashing down  
Round up the bodies and stack 'em high we're gonna burn them to the ground

They all fall down  
They all fall down  
Ashes Ashes  
They all fall down

Another burning by the wayside  
Suffering from what we can't fight  
Still humbled by the same plight  
So we dance in to the dark night

They all fall down

They all fall down  
They all fall down  
Ashes Ashes  
They all fall down

They all fall down  
They all fall down  
Ashes Ashes

They all fall down
