

# I'm a Realist

## The Crips

I'm a realist  
I'm a romantic  
I'm an indecisive piece of shit

I'm a realist  
I'm a romantic  
I am indecisive and that's about it

And you dream that's the same thing  
That's the same life you lead  
I don't agree and so you drink  
Don't wanna think  
That's 'cause your mind is already made up

I'm a realist  
I'm a romantic  
I'm an indecisive piece of shit

I admit it  
I'm up to my old tricks  
Did you see her eyes (Oh no I tried)  
She looked surprised

And you dream that's the same thing  
that's the same life you lead  
I don't agree and so you drink  
Don't wanna think  
That's 'cause your mind is already made up

How you dream that's the same thing  
That's the same life you lead  
I don't agree and so you drink  
Don't wanna think  
That's 'cause your mind is already made up  
No

I know that it's only a matter of time  
Before you know it  
I'll be leaving town, see it in my eyes  
That no one will do  
No one will ever do

I know that it's only a matter of time  
Before you know it  
I'll be leaving town, seen it in your eyes  
That no one will ever do  
No one will ever do for you
