

You & I

The Crips

You and I
You and I
We should take the road less travelled
We should take the road less travelled
And we'll die
We'll die
You and I
You and I
We should always feel empowered
We should always feel empowered
And we'll die
We'll die

And when you're feeling low
Weren't feeling sure
We all know what it's like to be left behind
Yeah yeah yeah, oh
Yeah yeah yeah, oh
