## **Composed Of Stone**

## **The Crimson Armada**

I'll put the fear of God back into you.
I'll show you what this world is really worth.
Apathy is our greatest disease.
We are void of compassion
You've got to let this... Go

I'll put the fear of God back in to you And show you what this world is really worth.

Heed not in their examples

Or as one we'll perish in the arms of those who curse men

The light is dim to those

Who breathe this infectious worldly obsession

The warmth of circle seven is inviting unobstructed

See not the ways of the wicked is the path to be seduced

And led in vain?

My Lord
Take this heart composed of stone
Break me down and mend me in your word
My Lord define me
Guide my soul
Cleanse my heart
And make me whole

We are caught in stasis
We are becoming everything we've hated
Lord I need your grace
Give me the strength
To take this leap of faith
You're staring at the edge and there is nothing left to do but jump
