

# Electric Night

The Crown

Watch out!

The night is magic, metal-electric  
Your mind goes manic, wild and satanic  
600 souls of blasphemy, tonight we set the power free  
In flashing lights and violent sound  
Where bodies rain and faces scream!

God Shock! Devil Lust!  
Electric night  
Come and let those fuckin' demons out now!  
Let it out! Come let yourself go! Go insane!

Driven to insanity, I am what you think  
Adrenaline rush, going totally blind  
Energy, aggression, mayhem and chaos  
Harder and faster, ain't gonna give in  
An explosion of deathnoise, a shockwave of power  
This is the way we take our revenge!

God Shock! Devil Rock!  
Electric storm  
Come and let it blow your mind away now!

Blasting at motorspeed, like iron angels on the lead  
Loudest shit you've ever heard  
Yeah... the screaming out the soul inside  
No future baby... we're going down  
But I'll always remember those electric nights

God Shock! Demon Rush!  
Electric mind  
Come and let the Devil in now honey!  
Let Him in!  
And let's raise some Hell tonight!  
Hell tonight... let it burn!  
Let Him in!  
And let's raise some Hell tonight!  
Hell tonight... let us fuckin' burn!
