

The Speed Of Darkness

The Crown

Those you know - Don't speak
Those you speak - Don't know
Knowledge no words can contain
In the silence between your chattering thoughts
You dream of light that do not die
Well think again
Saying prayers for your soul to save
You're wrong again - Helpless, weak and afraid
Drawn into the light of doom
And like moth to the flame
You're consumed - Belief - As hollow as fear
Darkness - The way of the force
The Speed of Darkness - Rebel soul
The Speed of Darkness
Riding with the Speed of Darkness
Faster than the speed of light
Together with the Speed of Darkness
Shining through the night
From Darkness all is born - And to Darkness all return
You try so hard to follow - I can't be lost
When free of all illusion - There is just force
The way of no roads
The freedom here at the peak of time
The Speed of Darkness - Rebel soul
The Speed of Darkness
Riding with the Speed of Darkness
Faster than the speed of light
Together with the Speed of Darkness
Shining on through the night
The Speed of Darkness
Hell - For the helpless ones
I take and make it my heaven
Hell - For the helpless ones
I am at one with Darkness

Before the beginning - After the end
Like cattle who in panic flee - From the fire
You will run in fear until you fall - All burning
(But) those who stand and turn
Towards the flames - Through the inferno
Shall survive on the other side
Where the ground is cleansed
For those who turn to Darkness
Are in Endlessness
The Speed of Darkness - Rebel soul
The Speed of Darkness
Do you know - The Speed of Darkness
Faster than the speed of light
Together with the Speed of Darkness
Shining on through the night
Riding with the Speed of Darkness
Faster than the speed of light
Forever with the Speed of Darkness
Shining through the night
All Light Gone - All Night Long
All Light Gone - All Night Long
