

Well we heard you got caught in the slipstream
Then you found your way back to the bad dream
Well it's a good thing you are still breathing
Well I'd say it's time to be leaving

Someone
Come here
Come

Well we heard you got lost in the back scene
But we all know nothing's as it seems
Yeah we heard you got caught in the slipstream
And it's the last time you were seen

Someone
Come here
Come

It's a good day to fly today
There's a halo above your head
It's a good day to fly today
There's a halo above your head

It's a good day to fly today
There's a halo above your head
Yeah it's a good day to fade away
Oh yeah... oh yeah... yeah...

Here comes...

Someone
Come here
Come

Cause I don't want to know
And now we'll never know
Oh where, oh where to AirCon go

Someone
Come here
Come
