

All Grown Up

The Crystals

Little boy, you probably don't know it
But on the night we met
You stole my heart away
Little boy, can't help it if I show it
But I wish that you would love me too
Just as much as I love you
Then I know you would see
That you were meant for me
Little boy, please let me be your little girl
Little boy, I hope you do believe me
'Cause it would break my heart
If you should walk away
Little boy, just say you'll never leave me
And I'll give my heart and soul to you
Then you'll see our love is true
Yes, and I know you'll see
How much you mean to me
Little boy, please let me be your little girl
I just want to go every place that you go
And do everything that you do
I just want to know everyone that you know
Then spend my whole life loving you
Yes, and I know you'll see
How much you mean to me
Little boy, please let me be your little girl
Little boy
Little boy
Little boy
