

## Girls Can Tell

### The Crystals

Girls can tell if boys are true  
By the things they say and do  
And I can tell that you'll be true to me

Don't you know it means so much  
When I feel your tender touch  
When you say that I look real fine  
When you put your hand in mine  
We will always be together  
Stay in love forever (girls can tell)

Girls can tell if things are right  
When they kiss a boy goodnight  
And I can tell that you're just right for me

When its time for you to go  
Gee I always miss you so  
And I gotta kiss you one more time  
I gotta hear you say you're mine  
We will always be together  
Stay in love forever (girls can tell)

Every day I love you more  
Than I did the day before  
Wish that I could make you see  
Just how much you mean to me  
Every time I look at you  
I just don't know what to do and

My arms is gonna hold you tight  
I wanna see you everynight  
By the stars that shine above me  
I can say you love me girls can tell
