

# Every Man and Woman Is a Star

The Cult

Shadows, tag lovers  
Don't smile, be wise  
Pray that the world keeps us all down  
Tempests, bad trips  
Small lies, kill signs.

Kill the beast in the ditch.

Pray that the world keeps us all down  
Every man and woman is a star  
Lying out like the shadows, they don't know who you are

Slow down, don't cry  
Yeah, you're soon, you're over

Kill the beast in the ditch  
Gotta kill the beast in the ditch.

Pray that the world keeps us all down  
Every man and woman is a star  
Lying out like the shadows, they don't know who you are.
