Free baby Free baby

I shaved my head Yeah, wiped the sheet clean Hangman has packed up I continue to dream

My words are broken
It's not easy to chew
So much unknown
So much is knowing, too

Lost

I'm lost in your shadow
Lost, oh yeah-yeah
I'm lost in your shadow

I explode in your belly My skull in your hands You drive me like honey Across sour taste glands Free baby Free again baby Yeah, semen is pure It's divine on your vine

Lost

I'm lost in your shadow
And I'm lost, yeah
I'm lost in your shadow

Yeah real girl, you cut through my blues Yeah real girl, well you're golden to your shoes You're really, really, really, really, really, really, real, yeah Yeah real girl Oh, femme fatal with fur

Na-na-na-na-na...

Let's flow together Let's come together Let's swim together Hypnotize each other

Yeah real girl, you cut through my blues Real girl, well you're golden to your shoes Real girl, yeah Femme fatal with fur

I explode in your belly My skull in your hands Drive me like sugar Across sour taste glands

I shaved my head

Yeah, wiped the sheet clean Hangman is packed up I continued every day

Lost, oh yeah-yeah
Lost in your shadow
Lost, oh yeah-yeah
I'm lost in your shadow

I'm lost in your shadow
Lost
Lost
Lost
I'm lost in your shadow

I am lost
I am lost
I am lost
