

# Give Me It

The Cure

Get away from me  
Get your fingers out of my face  
This room's so hot  
This room's so hot

I break the walls

Get away from me  
Leave me alone  
Like the pig on the stairs  
Hanging  
In a groovy purple shirt

Gasping for air  
I'm gasping for air  
I'm gasping for love  
I'm gasping for air

Slit the cats like cheese  
Then eat the sweet sticky things  
Suck harder suck harder  
Suck your insides insides out

Blood thick swimming round your feet  
As you're choking  
Choking  
Choking on the fleshy words

Give me it give me it give me it  
Deaden my glassy mind  
Give me it give me it give me it  
Make me blind  
One step back and one step down  
And slip the needles in my side

My head is cold  
My hands are cold  
My heart is cold  
My heart is black  
And stops every fucking night  
Every night  
I wait until it stops

Sing birds sing birds sing birds sing  
Get away
