

## New Day

The Cure

New day  
In heaven the ground is waiting  
For the dust  
The seed  
My love once more

I shout  
New day

Hold the air and gasp in life  
This solid dance  
This cold cold night  
Is gone...  
The dark heat throbs  
The fools' sweat swims  
The hazy lights  
The deadly sins  
Are gone...

Crack the stone  
Invade my head  
Dropping honey dropping dead again

The silence shouts  
Across the gap  
Another dreaming  
Love me again  
Shout...
