

## NY Trip

The Cure

"One by one they drop", you said  
Left us two on a ride stopped dead  
It's monkeys on the track  
All fell out of their tree  
"Lost their tails", I said  
"In the deep dark sea"

So take me on the ice and push me around  
And every time I fall, I kiss the ground  
You skate on by without a sound  
Yeah, I'm in love with you cold  
Any warmer and I drown

Whatever you want  
Whatever you need  
Oh, anything at all  
I'm only here to please you

In any way I can  
There's really nothing in the world I won't do  
To get a New York, Disney smile from you

Ow, you're so beautiful it hurts  
Ow, the most beautiful girl I ever  
Ow, too beautiful for words  
Now please, inside beside me  
And let's take on the world

"One by one they drop", you said  
Left us two on a ride stopped dead  
It's hard to be sure  
But I swear they're whales  
Swimming down the line  
Spitting monkey tails

So drag me on the floor and get me to twirl  
And every twist around, I buss you first  
You spin right through a perfect blur  
Yeah, I'm in love with you quick  
Any slower and I burst

Whatever you want  
Whatever you need  
Yeah, anything at all  
I'm only here to please you

In any way I can  
There's really nothing I won't do  
To get a New York Disney smile from you

Ow, you're so beautiful it hurts  
Ow, the most beautiful girl I ever  
Ow, too beautiful for words  
Now please, inside beside me  
And let's take on the world

"One by one they drop", you said

Left us two on a ride stopped dead  
It's vultures on the rail  
And they're packed down tight  
"Best get close", I said  
"This could take all night"
