

# Out of Mind

The Cure

I've been up for days and I feel like a menagerie  
I'm scratching 'til I bleed and I keep on seeing  
Imaginary lemurs in the street in the middle of the day  
But as long as I can breathe then I know I'll be okay

I'll be alright  
I'm out of mind  
I'm out of sight  
I'm out of sight, yeah yeah

I've been up for days and I feel like a laboratory rat  
Inside a maze and I reel in the monotony of  
Screaming at the moon in the middle of the day  
But as long as I can see it then I know I'll be okay

I'll be fine  
I'm out of sight  
I'm completely out of mind  
Completely out of mind

Okay alright  
Come and watch me shake tonight  
Mouth wide soft and bright  
Bite my hand and scream

Okay alright  
Come and watch me break tonight  
Push deep out of sight  
Bite my hand and hold on tight
