

# The Last Day of Summer

The Cure

Yeah it's a snow white original mix and she's fixing me  
And the heartless thing she does is everything I love  
It's all I ever need

Yeah it's a skin tight sensational strip and she's tripping me  
And the shameless way she turns...  
Is all I ever dream

You ask me why I use it  
It could be just a way to pass the time  
I never really choose it  
It's just another play to lose...  
My mind...

Yeah it's a bright light promotional taste and she's wasting me  
And the tearless time she breaks is everytime I ache  
It's all I ever feel

You ask me why I need it  
It's maybe just a way to pass the time  
I never really mean it  
It's just another play to lose...  
My mind...

Yeah it's a big night emotional kill and she's thrilling me  
And the careless way she hurts...  
Is all I ever scream

You ask me why I take it  
It could be just a way to pass the time  
I never really make it  
It's just another play to lose...

I'm coming up in the dark  
And every part of me is bruised and raw and pained  
I'm coming up in the dark  
And every part of me is loose and sore and stained  
And so I play it when I use it if I need it then I take it  
And I play it all again...  
And then I hold you... so cold you... like I know you...  
Yeah like I always know and like I always lose...  
My mind... my mind...

Yeah I play it when I use it if I need it then I take it  
And I play it all again... and then I hold you... so cold you...  
Like I know you...

Yeah like I always know and like I always lose  
Yeah like I always lose  
Like I always lose...  
My mind
