

The Promise

The Cure

How time will heal
Make me forget
You promised me
Time will heal
Make me forget
You promised me
Love will save us all
And time will heal
You promised me

How love will save
Make me forget
You promised me
Love will save
Make me forget
You promised me
Time will heal us all
And love will save
You promised me

I trusted you
I wanted your words
Believed in you
I needed your words
Time will heal
Make me forget
And love will save us all
You promised me another wish
Another way
You promised me another dream
Another day
You promised me another time
You promised me another life
You promised me

So I swallowed the shame and I waited
I buried the blame and I waited
Choked back years of memories

I pushed down the pain and I waited
Trying to forget

You promised me another wish
Another way
You promised me another dream
Another day
You promised me another time
You promised me

Another lie
Oh you promised me

You promised me
You promised me
And I waited
And I waited
And I waited

And I'm still waiting
