The Real Snow White

You've got what I want...

Oh yeah! It's only for the night And I will give it back tomorrow I swear She can barely breathe Don't stare I know the dress is tight But it was all I had to wear Give me what I need Please share You know it's only right And I would never lie to you I wouldn't dare...

I made a promise to myself I wouldn't start with anyone else but... You know how it is with these promises Made in the heat of the moment They're made to be broken in two Sometimes the only thing to do

Oh no! It's all coming back How I came to in a sticky three-day hole Didn't see the sign Go slow Too busy tuning static on the radio She hissed it in a song 'Don't go... It always fades to black' But that's why I love the trip It's so inevitable

I made a promise to myself I wouldn't fall for anyone else but... You know how it is with these promises Made in the heat of the moment They're made to be less than they seem Whenever you've got what I need

And you've got what I need...

Aaaiiieee! For service with a smile I have to walk in on my hands And roll for free You say it's all the same Ennui... You're not the real snow white The real snow white is on my knee I didn't need to get id It's simply minimum height And getting all dressed up In seven ways to please

I made a promise to myself

The Cure

I wouldn't stay with anyone else but... You know how it is with these promises Made in the heat of the moment They're made to be broken one day If there's no time to get away

Uh-oh! She wasn't made to shine She was really only ever made to glow I left her in the dark No show Quiet sucking on a line... It was a tricky gun to load And I didn't get to fire Hi-ho! She's off to work for time I should have finished out with higher Up than low

I made a promise to myself I wouldn't stop with anyone else but... You know how it is with these promises Made in the heat of the moment They're made before right becomes wrong Whenever you've got what I want

And you've got what I want...

Oh yeah! It's only for the night And I will give it back tomorrow I swear
