

## The Same Deep Water as You

The Cure

Kiss me goodbye pushing out before I sleep  
can't you see I try swimming the same deep  
water as you is hard "the shallow drowned lose  
less than we" you breathe the strangest twist  
upon your lips "and we shall be together..."

"Kiss me goodbye bow your head and join with  
me" and face pushed deep reflections meet  
the strangest twist upon your lips and  
disappear the ripples clear and laughing break  
against your feet and laughing break the mirror  
sweet "so we shall be together..."

"Kiss me goodbye" pushing out before I sleep  
it's lower now and slower now the strangest  
twist upon your lips but I don't see and I don't  
feel but tightly hold up silently my hands  
before my fading eyes and in my eyes your  
smile the very last thing before I go...

I will kiss you I will kiss you I will kiss you  
forever on nights like this I will kiss you I will  
kiss you and we shall be together...
