The Same Deep Water as You

Kiss me goodbye pushing out before I sleep can't you see I try swimming the same deep water as you is hard "the shallow drowned lose less than we" you breathe the strangest twist upon your lips "and we shall be together..."

"Kiss me goodbye bow your head and join with me" and face pushed deep rteflections meet the strangest twist upon your lips and dissapear the ripples clear and laughing break against your feet and laughing break the mirror sweet "so we shall be together..."

"Kiss me goodbye" pushing out before I sleep it's lower now and slower now the strangest twist upon your lips but I don't see and I dont feel but tightly hold up silently my hands before my fading eyes and in my eyes your smile the very last thing before I go...

I will kiss you I will kiss you I will kiss you forever on nights like this i will kiss you I will kiss you and we shall be together...

The Cure
