

## Down Of My Feet

### The Damnation

I know there is no God for me - I am alone  
Survival in a twisted world - more behind more  
I am running to the path of the dead - who is my bride  
Now, here and forever - I married the Dark  
I married the Dark

Darkness! Help me to live away reality  
Count the dead! I'm waiting for infinite dismay  
You'll shred the souls and shattered human sign of faith  
At storms of chaos into fright christians will lost in hell Do  
main

My skin is dripping from blood - you fall apart!  
The nocturnal hour is passed - the cross hanging around  
Beholders of life you're dead - I'm looking your ripping heads  
You're losing all your beliefs - You're down of my feet  
You're down of my feet

Darkness! Help me to live away reality  
Count the dead! I'm waiting for infinite dismay  
You'll shred the souls and shattered human sign of faith  
At storms of chaos into fright christians will lost in hell Do  
main
