Don't Bother Me

The Damned

I say hello don't think that I don't know you're listening to m ρ But please don't bother me Don't bother me You bought this thing so I would sing about that awful nuclear thing I hope won't bother me Won't bother me Your rolling stones and pop star clones don't even want to hear their moans I say don't bother me Don't bother me Those men of steel I really feel are quite extremely unreal I wish they'd all just fade away So here am I under the sky can I ask you Without a lie to please don't bother me Don't bother me I'm in a hole just like a mole Don't give a toss lady in her mink stole Don't bother me Don't bother me The people change they rearrange but stay the same It's awfully strange But they don't bother me Don't bother me Until the day their troubles stray on to my patch Like tony hatch's 'crossroads' theme Please go away Go away Not interested
