

# I Believe The Impossible

The Damned

Someday don't you know we're gonna win  
'Cause we are the heroes, won't give in  
Honor don't you know's a state of mind  
And if you can't see that you must be blind

Tell the truth deceive my ears  
Warn me of my darkest fears  
Can we walk on the sun  
Hanging judge had his fun

I believe the impossible  
Can come come true  
If we want it to

I believe the impossible  
Can come come true  
If we want it to

Ever wondered what it would be like  
No more workers, they don't have to strike  
No more junkies out there on the streets  
No more politicians lying through their teeth

See the axe man get it back  
No more stranglers dressed in black  
No more villains have to rob  
All the kids can get a job, oh yeah

I believe the impossible  
Can come come true  
If we want it to  
(repeats)
