

For My Own Good

The Damnells

I want to feel something better
I want to run from this cold
Cold weather
You want me to listen when you speak

You say it's for my own good
You say it's for my own good

I always liked you in the spring
You just lay there and let that telephone ring
I wish I'd listened to you then

'Cause it was for my own good
Yeah
It was for my own good
I wish I'd listened to you then
You say it's for my own good
