

# For My Own Good

The Damnells

I want to feel something better  
I want to run from this cold  
Cold weather  
You want me to listen when you speak

You say it's for my own good  
You say it's for my own good

I always liked you in the spring  
You just lay there and let that telephone ring  
I wish I'd listened to you then

'Cause it was for my own good  
Yeah  
It was for my own good  
I wish I'd listened to you then  
You say it's for my own good
