

Texas

The Damnells

I'm ten thousand miles from you
My sky is black when yours is blue
You just steal my broken faith
And put it back together
You're cheating on the weather with me

I sing a song I wrote for you
A hundred melodies so blue
Will you be my stolen rain
That washed it all together
I love you like a fever gone cold

I'm singin' in my sleep
Driving across Texas with you
And you look so good

I'm singin' in my sleep
Driving across Texas with you
You look so good

I could stay another day with you
Stall winter's pain till June
Will it stay the same?
Will winter be in summer?
I'm already gettin' older with you

I'm singin' in my sleep
Driving across Texas with you
And you look so good

I'm singin' in my sleep
Driving across Texas with you
And you look so good

I'm singin' in my sleep
Singin' in my sleep
Driving, driving

I'm singin' in my sleep
Driving across Texas with you
And you look so good
You look so good
