

The Lost Complaint

The Damnwells

When you gonna stay the same
Not till I've gone away
When you gonna take the blame
Oh, when your love has strayed
Oh, your love has strayed

When you gonna taste the same
Go and perform again
When you gonna call the game
This is the lost complaint
This is the lost complaint

I just want the focus on you
My photograph won't disappoint you
I just want the focus on you
Marie Claire's got nothing on you
I just want the focus on you

When you gonna change your name
To one that we can say
When you gonna keep the take
That's when the crime has paid
That's when the crime has

I just want the focus on you
My photograph won't disappoint you
I just want the focus on you
Mademoiselle's got nothing on you
I just want the focus on you

I just want the focus on you
My photograph won't disappoint you
I just want the focus on you
Seventeen's got nothing on you
I just want the focus on you

My photograph won't disappoint you
I just want the focus on you
