

## The Trade

The Damnells

And then I woke up  
Fell in line  
Collected my prize  
Paid my fine  
I couldn't be more ready than this  
Completely aware  
Sunkissed

Take me outside and trade this truth for lies

Another one stuck in my head  
Electric song sings me to bed where I dreamt I took a trip  
I think it was to India  
I drove 'round in Cadillacs 'til I got lost and never came back

Take me outside and trade this truth for lies

You and I can take a ride if you're going some place I might like  
Does it have to make sense all the time?  
Do I really have to make up my mind

Take me outside and trade this truth for lies  
Take me outside and trade this truth for lies
