

What You Get

The Damnells

Say, what you wanna say but it don't matter
Do what you wanna do but we don't care
You haven't anything that we would bother
You haven't anything that we would dare

That's what you get for being afraid
That's what you get for staying away

Say, what you wanna say but it don't matter
Do what you wanna do but we don't care
You haven't anything that we would bother
You haven't anything that we would dare

That's what you get for being afraid
That's what you get for staying away

Go on regret do it anyway
That's what you get for being afraid
