

While You Can

The Damnells

Get out while you can
It's on me
Get out while you can
Let it be
You have always been here with me
And I have always been here with you

Get out while you can
It's on me
Get out while you can
Let it be
You have always been here with me
And I have always been here with you

I have always been here with you
You have always been here with me
