

## Rest Your Head

The Dandy Warhols

Go to sleep the play is over  
Left your ticket on the seat  
Be redeemed when you're dreaming  
Lay your head and go to sleep

Don't you worry till tomorrow  
Heaven knows you surely will  
Think about it, take one more lap around it  
Close the blinds and set your mind at peace

Waste some time, waste some money  
Talk about your wasted years  
They devastate you, complete and complicate you  
Never minding your wasted tears

Don't you worry till tomorrow  
Heaven knows you surely will  
Think about it, take one last lap around it  
Close your eyes and let your mind release...

Love and kindness, pain and sadness  
All the stations in between  
They will derail you, they will assail you  
But rest your head, for I won't fail you

Don't you worry till tomorrow  
Heaven knows you surely will  
Think about it, one last short lap around it  
Close your eyes and set your mind at peace.
