Ride

The Dandy Warhols

You're my ride I'm out my window It's alright If you got candy-o You're so cool, And not much older But you know how to drive Baby you're my ride.

I sneak outside, And to the corner. Roll down your drive Before you start it. I'm no fool, Not like your father Awake outside Baby you're my ride.

My ride My ride Baby, you're my ride
