

Sad Vacation

The Dandy Warhols

Then you get me right down to the crawl And then you get me right
down to the crawl One more lesson now that's all One more lesson
now that's all Yeah, yeah, yeah, yeah

Then you get me right down to the crawl And then you get me right
down to the crawl One more lesson down it goes One more lesson
down it goes

I'm on vacation I gotta change the station I can not fake like
I can not hear Any sound so insincere Cause the more you stay the
same The more I feel like I have to change So you can watch
me walk away or you can beg But I can not stay No way, no way,
no way

I'm on vacation I gotta change the station I can not fake like
I can not hear Anything so insincere Cause the more you stay the
same The more I feel like I have to change And you can watch
me walk away or you can beg But I'll never stay No way, no way,
no way, no way
