

The Autumn Carnival

The Dandy Warhols

You come around to the autumn carnival (ooo)
It's glowing like a jack-o-lantern on the hill (ooo)
You should be younger now than you were then
Trading silver (?) for a thrill
You come around to the autumn carnival (ooo)
There is a fog in the hall of mirrors (ooo)
The ghost of (?) has jumped the track
Like a carousel which is turning back
Create all the things that you lack
You can go there if you need
And you can surely fix you gauranteed
Ferris wheel unshadows and shatters (?) (ooo)

Across the ground into the eyes of the innocent (ooo)
The carnie spits at the waxing moon
And all that hell that was gone too soon
You can go there if you need
And it will surely fix you gauranteed
Here comes the rain so you move inside (ooo)
There is no compass, there is no guide (ooo)
And is no mask behind which to hide
You come around to the autumn carnival
You come around to the autumn carnival
And you can take it with you if you need
'cuz it will surely fix you gauranteed
You come around to the autumn carnival
