

## All Aboard

The Datsuns

Welcome a dawn  
Sun shining down  
But it's 3am  
ICBM  
It's getting so much hotter  
The mercury sings  
Green bricks, dirty sounds  
It's time to make for safer ground

All, All aboard row heavy water  
To go home

Clouds of white, they settle to dust  
Flowers spreading seeds  
Oh and sick disease  
If I could bury deep enough  
Straight and arrow through the core  
It's time to leave for pearly shores

It's time to make for safer ground
