

What Would I Know

The Datsuns

Come on baby baby don't deny
You got me standing at the end of your line
I'll take a number, just put me down
You know babe, I'll be the jewel in your crown

I see you coming after me
I know you ain't that good
At taking time to baby unwind
But just for your sugar
I'm gonna let it all go

She let me know lady everytime
She drives me crazy
Drives me out of my mind
It makes me angry
But what would I know?

Come on baby baby don't deny
You got me standing at the end of your line
I'll take a number, just put me down
You know babe, I'll be the jewel in your crown

I see you coming after me
I know you ain't that good
At taking time to baby unwind
But just for your sugar
I'm gonna let it all go

She let me know lady everytime
She drives me crazy
Drives me out of my mind
It makes me angry
But what would I know?

Tell me baby
Tell me again
Tell me sugar that I shouldn't pretend
That I know
Oh, I know
You tell me what's right
I know that it's wrong
Tell me baby
Wht you sing that song
