

## At The Place

The Dave Clark Five

In the darkness of the city  
There'll be someone waiting for me tonight  
Far from all the city noises  
She'll be waiting at the place where we always meet

At the place where we can walk and talk together  
There'll be no one else around but her and me

Very soon I'll be beside her  
At the place where no one else can be found  
I will say how much I love her  
Then we'll kiss at the place where we always meet

At the place where we can walk and talk together  
There'll be no one else around but her and me

La, la, la, la, da, da, la, la  
La, la, la, la, la, la, la  
La, la, la, la, la, la, la  
At the place where we can walk and talk together  
There'll be no one else around but her and me  
At the place  
At the place
