

Somebody Find A New Love

The Dave Clark Five

Somebody help me find a new love
Somebody help me find it soon
Somebody help me find a true love
'Cause your love's grown so cold

No use you sayin' you still want me
The love we had faded away
I don't need you to be around me
'Cause your love's grown so cold

Someone I always can rely on
Someone who'll never ever lead me on

Somebody help me find a new love
Somebody help me find it soon
Somebody help me find a true love
'Cause your love's grown so cold

I need a new love, whoa-whoa
I need a new love, oh-oh
I need a new love
