

# Whenever You're Around

The Dave Clark Five

I can tell whenever you're around  
I'm so glad that you're the love I found

When people say we should never have met  
I know they're wrong 'cause there are no regrets for us  
Whenever you're around

I can feel that something in your kiss  
And I know that you'd be hard to miss

I feel so good whenever you are near  
And there's no need to ever cry a tear for you

Whenever you're around

Anytime you want my love  
I'll be waiting  
Anytime you want my arms  
They'll be waiting to hold you, hold you

I can tell whenever you're around  
I'm so glad that you're the love I found

When people say we should never have met  
I know they're wrong 'cause there are no regrets for us  
Whenever you're around
