

## Loved By The Sun

The Daysleepers

this light  
so bright  
we grow  
so tall we fall  
i knew you inside  
modified  
by the changes

don't make a sound  
follow me down

i was loved by the sun  
(lifted me up)  
always loved by the sun  
symmetry is where we begin  
(loved by the sun)  
i was loved by the sun

this mind  
designed  
to fold  
when there's no control  
i hold this in mind  
capsized  
by the changes
