

## Mesmerize

### The Daysleepers

you are a wave of sound  
it's a miracle  
open your lazy eyes  
let the water flow

asleep in the dandelions  
solitude  
sleepwalk into traffic  
the lights pass through

all of us shine  
all of us shine  
but you're moving too slow  
all of us shine

i am an atom bomb  
falling endlessly  
come and set me off  
hide your eyes from me

asleep in the power lines  
we're, lost in dreams  
we all turn into plastic  
we are all unseen
